POTOMAC FRUIT GROWERS' ASSOCIATION .rooms, in Washington, Judge J. H. Gray, the several companies, as follows: Vice President, in the chair. The resignation J. T. Bramhall, Recording Secretary, was received, and P. H. Folsom was elected to fill the vacancy. John Hayward and M. Durkin were elected to membership. Specimens of the Grindstone, Loudoun county, pippin, and Wine Sap apple were exhibited, the two first by Mr. W Douch, of Clearspring. Md., and the latter by Mr. Auckmoody, of Falls Church, Va., and the merits of the various species were discussed at length, as also the keeping qualities of each. The difference between the various kinds of soils bordering on the Potomac and its estuaries was explained at length by Messrs. Taylor, Saun ders, and others, when the fact was developed that the presence of excess of potash was most likely the cause of early decay in fruits. After further conversation on the subject, in accordance with a resolution of last meeting, the subject of small fruits was taken up. Raspberries were first in order, and the debate on their culture led to the information that up to a few years ago finer fruit of this kind was produced in the District of Columbia and the contiguous counties of Virginia and Maryland than could be found in any northern State, but strange to say at present there was not an acre of raspberries in the same extent of country. It had been noticed also that with the decrease of the raspberry the wild species became more abundant; and that vines were stronger and more hardy from native than from foreign seedlings. After further debate it was resolved to recommend the Philadelphia raspberry as the standard or best for general growth in this region. The strawberry was the next subject of discussion, and, after lengthy interchange of views on the subject, on motion of Col. Daniels the Wilson Albany, for general cultivation and market, was settled upon as the best in this region. For amateurs the Agriculturist, Triumphe de Gand Rivers' Eliza, Chas. Downing, Jucunda and Welcome were recommended as the most desirable. Mr. J. H. King was invited to read a paper on Small Fruits, at a future meeting, and Professor Townsend Glover was invited to deliver a lecture on "Insects and their relations to fruits.'

U. O. G. B .- A Lodge of this entirely Ger man Order was organized here last Monday night, and was as such properly installed by the Grand Officers of the Grand Lodge of the State of Maryland. The Lodge is called "Humboldt Lodge No. 39," and it is thought will soon number all the Germans of the city, amongst its members as the principle of Mutual Life Insurance, which is the great feature of the order entitles it to the fullest confidence of this thrifty class of our citizens. The unusual growth of another German Order of the same principles has called for a second organization of the same kind, in order to reach every city and town of the Union. Wm. Metzger was appointed by the Grand Officers deputy for the State of Virginia, and applications for information, &c., will be received and properly attended to by him.

SPECIAL NOTICES.

Caution-Audacious Counterfeit. The reputation which, for many years, has attached to "Hostetter's Stomach Bitters," as the STANDARD TONIC OF THE AGE, and the

large demand for the article, not only in the United State: but elsewhere, have provoked the cupidity of the COUNTERFEITING TRIBE, and it has been extensively SIMULATED and

IMITATED by unscrupulous sharpers. The most during counterfeit of said article which has been attempted, has recently come to our knowledge. The engraved steel label on bottles containing the genuine bitters, with its beautiful vignette of St. George and the dragon, its shield, containing a warning against counterfeiters, and its note of hand for "one cent' at the foot, signed with our firm name, has been copied so closely, that the fraud can only be detected on a minute inspection. The dark label is also well counterfeited, and the wording on both the imitation and genuine, are precisely the same, the difference being simply in the execution of the work; that of the imitation being somewhat coarser than the genuine -Other counterfeits are on the market, which are in all particulars the same as described above, with the exception of a slight difference

in the spelling of our name. In addition to the above, these counterfeiters have gone so far in some instances as to place a strip of paper over the cork and fasten to the neck of the bottle, on which is a vignette, and otherwise printed to resemble the general appearance of our proprietary U. S. Revenue stamp, but upon inspection will disclose the absence of the figure '4," and the words "four cents," also "United States Internal Revenue," all of which, together with additional wording, appear on our genuine stamp. BANKERS AND DEALERS IN GOVERN-MENT SECURITIES,

No. 5 NASSAU STREET, NEW YORK,

February 15th, 1870. The remarkable success which attended our negetiation of the Loans of the CENTRAL PA-CIFIC RAILROAD COMPANY and the WESTERN PACIFIC RAILROAD COMPANY, and the popularity and credit which these Loans have maintained in the markets, both in this country and Europe, have shown that the First Mortgage Bonds of wisely-located and honorably-managed Railroads are promptly recognized and readily taken as the most suitable, safe and advantageous form of investment, yielding a more liberal income than can hereafter be derived from Government Bonds, and available

to take their place. Assured that, in the selection and negotiation of superior Railroad Loans, we are meeting a great public want, and rendering a valuable service-both to the holders of Capital and to those great National works of internal improvement whose intrinsic merit and substantial character, entitle them to the use of Capital and the confidence of investors-we now offer, with special confidence and satisfaction, the

FIRST MORTGAGE BONDS

OF THE

Chesapeake and Ohio Railroad Co. The Chesapeake and Ohio Railroad, connecting the Atlantic coast and the magnificent harbors of the Chesapeake Bay with the Ohio River at a point of reliable navigation, and thus, with the entire Railroad system and water transportation of the great West and Southwest, forms the additional East and West Trunk Line, so imperatively demanded for the accommodation of the immense and rapidly growing transportation between the Atlantic seaboard and Europe on the one hand, and the great producing regions of the Ohio and Mis-

sissippi Valleys on the other. The importance of this Road as a new outlet from the West to the sea magnifies it into one of national consequence, and insures to it an extensive through traffic from the day of its completion; while, in the developement of the extensive agricultural and mineral resources of Virginia and West Virglnia, it possesses, along its own line, the elements of a large and profitable local business.

Thus the great interests, both general and local, which demand the completion of the CHES-APEAKE AND OHIO RAILROAD to the Ohio River, afford the surest guarantee of its success and value, and render it the most important and substantial Railroad enterprise now in progress in this country. Its superiority as an East and West route,

and the promise of an immense and profitable trade awaiting its completion, have drawn to it the attention and co-operation of prominent Capitalists and Railroad men of this City, of sound judgment and known integrity, whose connection with it, together with that of jeminent citizens and business men of Virginia and West Virginia, insures au energetic, honorable and successful manage-The Road is completed and in operation from

Springs of West Virginia, 227 miles, and there remain but 200 miles (now partially constructed) to be completed, to carry it to the proposed terminus on the Ohio river at, or near, the mouth of the Big Sandy River, 150 miles above Cincinnati, and 350 miles below Pittsburg. Lines are now projected or in progress through Ohio and Kentucky to this point,

Richmond to the celebrated White Sulphur

which will connect the Chesapeake and Ohio with the entire Railroad systems of the West and Southwest, and with the Pacific Railroad. Its valuable franchises and superior advantages will place the CHESAPEAKE AND OHIO RAILROAD COMPANY among the richest and most powerful and trustworthy corporations of

the country; and there exists a present value, in completed road and work done, equal to the entire amount of the mortgage The details of the Lean have been arranged with special reference to the wants of all classes of investors; and combine the various features of convenience, safety and protection against

loss or fraud.

The Bonds are in denominations of \$1,000, \$500 and \$100.

They will be issued as Coupon Bonds, payable o Bearer, and may be held in that form ; or The Bond may be registered in the name of the owner, with the coupons remaining payable to bearer attached, the principal being then transferable only on the books of the Company,

unless reassigned to bearer; or The coupons may be detached and cancelled,

city of New York. The interest is payable in May and Novem-BER, that it may take the place of that of the earlier issues of Five-Twenties, and suit the convenience of our friends who already hold Central and Western Pacific Bonds, with interest payable in January and July, and who may desire in making additional investments,

to have their interest receivable at different sea-

sons of the year. The Losn is secured by a mortgage upon the entire Line of Road from Richmond to the Ohio River, with the equipment and all other property and appurtenances connected therewith.

A Sinking Fund of \$160 000 per annum is provided for the redemption of the Bonds, to take effect one year after the completion of the

The mortgage is for \$15,000,000, of which \$2,000,000 will be reserved and held in trust for the recomption of outstanding Bonds of the Virginia Central Railroad Company, now merged in the CHESAPSAKE AND OHIO. Of the remaining \$13,000,000 a sufficient amount will be sold to complete the road to the Ohio river, perfect and improve the portion

now in operation and thoroughly equip the whole for a large and active traffic.

The present price is 90 and accrued interest.

A Lean so amply secured, so exceeding guarded, and so certain hereafter to command a prominent place among the favorite securities in the markets, both of this Country and Europe, will be at once appreciated and quickly absorbed. Very respectfully,
